

BEWITCHING BRUNCH BURGER

(inspired by Applebee's)

turkey burgers

air-fried carrots (or roasted in hot oven)

melting cheese (any kind you like, we used Morbier)

sunny side up fried egg

salt and freshly ground black pepper

lettuce and avocado slices

bacon (optional)

hamburger buns (optional)

Cook the burger to your liking. Add cheese in the final minutes on the grill. Place on a plate over lettuce leaves (or a bun, for more traditional presentation).

Add a good layer of air-fried carrots (or roasted in super hot oven), top with a fried egg, well-seasoned with salt and pepper.

A little Sriracha adds a nice punch. Avocado slices sprinkles with lime juice and Tajin go well with it too.
